## CADET COMPLETES JED EXPERIENCE

**CAMP ZAMA, JAPAN** – U.S. Army Cadet Jessica Gonzales was recognized July 11 with a Certificate of Appreciation for her contribution during her three-week tour in the Japan Engineer District by LtCol. Richard Davis, Deputy Commander.

Arriving from the Military Academy at West Point, Gonzales' summer training session landed her in the Kanagawa Resident Office. She learned from many engineers about how USACE works as an organization. Gonzales will return to Japan as Academic Individual Advanced Development to enhance the development of future officers of the U.S. Army. (Photo by JED Public Affairs Satoshi Oka)
