Contractor: Hawk Contracting Group, LLC, Montrose, Colo.

In support of its Small Business Program, the Honolulu District awarded \$128 million of its total FY11 new contract and task order dollars to small businesses. The basis of the Small Business Program is to ensure that small businesses have the maximum opportunity to win Department of Defense (DoD) contracts, which is basic to the economic well-being and security of the nation. This status cannot be achieved without the ability to set aside procurements for the purpose of encouraging and developing small businesses to grow and prosper. Contracting with these firms strengthens the economy, generates competition, lowers overall costs, creates innovations, provides more jobs than any other sector, and enhances good business practices.

Small businesses play a key role in the Army's sustaining base in vital areas of military readiness, economic security and advanced technology.

The President is required to annually establish government-wide goals for procurement contracts awarded to small businesses (Section 644(g) of 15 U.S.C.). The Small and Disadvantaged Business Utilization Office, Office of Secretary of Defense, negotiates Department of Defense goals with the Small Business Administration and then develops and disseminates the annual small business goals for the fiscal year. The USACE Small Business Headquarters Office then develops goals for all the Divisions, Districts and Centers, based on an advanced acquisition planning process that each entity must engage in to be able to contribute projected targets for these future goals. Goal utilization assists to assure small business receives a fair proportion of DoD awards.

Additionally during FY11, the Honolulu District awarded contracts totaling \$39.4 million, nearly double the normal yearly targeted baseline budget for Hawaii for Formerly Utilized Defense Sites (FUDS), to help accelerate the FUDS cleanup processes in Hawaii and the Pacific territories.

U.S. Army-Hawaii benefitted from many contracts awarded and completed by the Corps of Engineers during FY11. Major military construction contracts awarded by the Honolulu District included a \$35.2 million contract to Absher Construction Company Inc, Puyallup, Wash. for the construction of UEPH Barracks at Schofield Barracks in June; in March, a \$127.9 million construction contract was awarded to dck-ECC Pacific, LLC, Honolulu for the design and construction of projects, South Range, Schofield Barracks; a \$59 million contract to Nordic PCL Construction, Inc., Honolulu for construction of the Warriors in Transition Barracks and Warriors in Transition Complex at Schofield Barracks, Oahu; and in February a \$37.8 million contract was awarded to Walsh RMA Joint Venture, Chicago, Ill., for construction of a 57,000 sq. ft. Tactical Equipment Maintenance Facility at Schofield Barracks.

In late January, a \$945,000 MATOC 8(a) task order contract was awarded to TOP Pacific Builders, LLC, Aiea, Hawaii for the installation of four chairlifts along the eastern side of the American Battle Monuments Commission Honolulu Memorial at the National Cemetery of the Pacific at Punchbowl to facilitate ADA access to the entire monument.

In May, the Corps awarded a \$2.4 million contract to Trade West Construction, Inc., Mesquite, Nev., to construct permanent repair of the landslide area resulting from a cyclone overlooking a portion of Route 118 in the vicinity of Samoana High School, Utulei American Samoa. Repairs include stabilization of the slope face by installing an anchored wire mesh system of approximately 43,000 sq. ft.

In late May, Honolulu District awarded a \$15.9 million contract to Sumo-Nan, LLC, Honolulu, to provide Tripler Army Medical Center Barracks Building 104 and surrounding area to meet current Army barracks standards. A \$7.6 million contract was awarded to Reliable Contracting Group LLC, Louisville, Ky., to alter two fuel storage tanks and the automatic tank gauging system at Joint Base Pearl Harbor-Hickam.

In July, the Corps signed a formal project partnership agreement with State of Hawaii Department of Land and Natural Resources (DLNR) for the construction of the Kawainui Marsh Environmental Restoration Project in Kailua, Oahu. The project will help to restore habitat for four endangered waterbirds on Oahu – the endangered koloa maoli (Hawaiian duck), ae‘o (Hawaiian stilt), ‘alae ‘ula (Hawaiian moorhen) and ‘alae ke‘oke‘o (Hawaiian coot). In late September, the Corps awarded a \$3.9 million contract to Performance Systems, Inc., Waipahu, Hawaii for the project.

Honolulu District is committed to building and managing the construction of projects that improve the quality of life for service members and their families and that provide jobs and money which stimulate the local economy.
